Our Goal Camaraderie Foundation provides access to mental health counseling services, at no cost, to those members of the military service, veterans after 9/11 and their families. Our warriors and their families experience post-traumatic stress disorder, traumatic brain injury, military sexual trauma, divorce, substance abuse, marital violence, child abuse, and other problems that we serve through the private sector and can supplement and/or add to existing government programs. With your support, we can help these Service Members and their families. Eighty-two cents for every dollar collected are spent directly on our programs. Our vision is to provide military service members, After 9/11 Veterans, and their families with support, encouragement and counseling to alleviate the stress of their transition from the battlefield back to society by building a strong support community around them. By healing their invisible wounds, we are really saving lives – saving families. Follow the Camaraderie Foundation on Facebook and Instagram. To learn more about the visit, CamaraderieFoundation.org our mission to BASE Camp Children's Cancer Foundation is to year-round support base for children and families who face the daily challenge of living with and other life-threatening haematological diseases. Since 1982, we have been serving children and families in Central Florida. Our goal at BASE Camp is a consistent presence that families can rely on. We support our families throughout the journey by giving you the strength you need to complete your climb. What does BASE Camp mean? We believe that every child deserves a childhood. We achieve the impossible every day. We support Patients & Families. We are educated so that you can help us. We are BASE Camp: Your support base for children's cancer. Just like the base encampment, which are built as climbers ascend the mountains, our programs offer a place to stay on the road for rest, nutrition, encouragement and strength to finish climbing. Cancer, sickle cell anemia, hemophilia and other rare/orphan haematological diseases can be such mountains in children's lives. BASE Camp serves as a support base where patients and their families can request help and support on the go. Follow base camp on Facebook.
